MOTLEY ~BADGE~

PSYCHIC | CELESTIAL
STRENGTH

His skill lends the belief he belongs to the Sensory group, but that is still unsure and yet to be fully determined.

Skill: Astral Projection or AP—the ability to pull one's spirit form from the body to travel elsewhere, being in two places at once; yet left unseen to mediums.

Lives with: unsure of family & home; it's complicated.

Likes: dirt bikes, cars, anything with a motor, & being cool

Struggles: with his current 'physical' condition & figuring out who he is. But he hides both well.

Greatest fear: never restoring his body & being alone forever.

Greatest wish: to keep the new friendships he's made with Ebony & Fleishman. Shh...don't tell.

Best Advice: stay away from dark elves. Period.
